Underwritten by AXA PPP healthcare Limited

Health For You is underwritten by AXA PPP healthcare Limited.

At Health-on-Line we've been providing healthcare cover since 2000. In 2005, we began working with AXA PPP healthcare Limited, giving our customers the added reassurance of 75 plus years' experience of private healthcare insurance.

It was then a natural progression for us to join the AXA Group in 2012, and today we continue to offer private healthcare insurance from our Bournemouth base.

Comprehensive Heart and Cancer Cover

Extensive heart and cancer cover and care

We'll provide cover and support at every stage of heart and cancer treatment.

Covering your treatment, surgery and the very latest drugs

Our cover will meet your needs at all stages of cancer treatment and heart surgery. We provide access to the very latest in licensed treatment, drugs, support and care, including proven drugs that are not yet available on the NHS.

Out-patient drugs are not covered on this policy.

Note: As with all private healthcare policies, your eligibility for cover depends on your medical history.

Ongoing check-ups and monitoring covered

Cancer

After treatment for cancer, we'll cover all ongoing check-ups and monitoring with your treating specialist no matter how much time passes, as long as you remain a member and have a policy that covers this.

Heart surgery – when you choose an Out-patient Option

After any of the types of heart surgery listed below, we'll cover long-term monitoring, consultations, check-ups, scans and examinations related to the surgery, as long as you remain a member with Out-patient cover.

- ✓ Coronary artery bypass
- ✓ Cardiac valve surgery
- ✓ Implanting a pacemaker or defibrillator
- ✓ Coronary angioplasty.

Fast Track Appointments service

get the healthcare you need – fast

You've got a concern about your health. Your GP refers you to a specialist with an open referral. And our Fast Track Appointments team does the rest – fast.

- 1. Your GP gives you an open referral** (which is a referral that doesn't name the specialist you should see), but instead gives you the type of specialist e.g. a cardiologist.
- 2. Just call us and we'll check where and when will suit you best** and book your appointment for you, making it simple and hassle free. We'll cover your appointment as long as you have an out-patient option included on your policy.
- 3. Alternatively if you'd prefer, we can provide you with the names of up to three specialists**, all experts in their field, who you can contact directly.

In fact, with our Fast Track Appointments service, on average our members with an open referral are seen **twice as fast** as those members whose GPs have referred them to a named private specialist.*

Specialist appointments are covered when you choose an Out-patient Option.

**based on our 2018 Fast Track Appointments service data, recorded from the date the member called our Personal Advisory team.*

Working Body

fast telephone access to expert physiotherapy services

You can never tell when muscle, bone or joint trouble will stop you in your tracks, but you can make sure you're ready for it.

With Working Body you can arrange a phone call with a physiotherapist about all types of conditions that affect bones, joints and muscles, to make sure you're getting the advice and treatment that's right for you.

And there's no need for a GP referral.

The Working Body service is not available to members under the age of 18.

Included as standard in your plan

All our members have phone access to a clinical assessment from a qualified physiotherapist who will advise on the most appropriate treatment. Often a course of exercises that you can do at home will get you on the mend.

Hands-on treatment is then covered subject to the options you include with your policy:

✓ Hands-on physiotherapy from expert physiotherapists

If you need a course of hands-on physiotherapy and you have the Therapies Option, we'll advise a plan of treatment to meet your needs. For example, we can arrange for you to see a fully-qualified physiotherapist at a clinic that's convenient for you to get to.

✓ See an experienced specialist

If your condition means you need more than physiotherapy and you have an Out-patient Option, we'll fast track you to a convenient appointment with a specialist who has the skills and expertise you need. See page 3 for further information on our Fast Track Appointments service.

The physiotherapists you speak to will be able to advise you what to do – whether that's following a course of exercise, going for some physio, or seeing a specialist.

- £500
- £1,000*
- £2,500*
- £5,000*

5% annual payment discount

Save by paying annually.

Manage your Options

You can choose to select the NHS Cancer Support Option which will lower your premium.

No Claims Discount

Your No Claims Discount applies from the moment you join us – you don't have to be with us for years first.

We work out what level of No Claims Discount applies to your policy and apply it to your premiums. Each year you renew, we review your discount until you could have a discount of 80% on your premium cost. Of course if you do claim your discount will decrease.

Therapies claims will not affect your No Claims Discount.

Protected No Claims Discount

We do provide the option to protect your No Claims Discount. If you would like to find out more about this option, speak to your intermediary.

Your health when you join us

We take account of your health when you join us so that we can work out your premiums.

You can choose how we do this by either:

- Telling us some details about your health (called Full medical underwriting), or
- Join on the understanding that you won't be covered for conditions that you had in the five years before you joined (called moratorium underwriting).

Full medical underwriting

With full medical underwriting, we ask you to tell us about your health today and in the past so that we can work out what cover we can offer you.

Sometimes, we may ask for reports from your GP or other medical practitioners.

Moratorium underwriting

With moratorium underwriting we don't need to ask you for any details about your health when you join.

Instead, for the first two years of your membership, you agree that we won't cover you for medical conditions that you had in the five years before you joined. If you've been free of treatment or advice for that condition for two years in a row after you've joined, we'll look to see if we can cover it for you.

If you already have diabetes, raised blood pressure or have had any investigations treatment or monitoring after a PSA test there are also some specified conditions that will not be covered, these are listed in the table below. Moratorium underwriting is not available if you are over 74.

Here's an example of how Moratorium underwriting works.

Moratorium underwriting and specified conditions

If you have had certain treatment, tests or conditions in the five years before you join us or when you join, this can mean that you will not be covered for other conditions too. These include:

This condition	Means you will also not be covered for the following
Diabetes	<ul style="list-style-type: none"> • diabetes • ischaemic heart disease • cataract • diabetic retinopathy • diabetic renal disease • arterial disease • stroke
Treatment for raised blood pressure (hypertension)	<ul style="list-style-type: none"> • hypertension • ischaemic heart disease • stroke • hypertensive renal failure
